

Eclipse™

A solution for all types of construction projects.

Residential/Multi-family

Retail/Industrial

One OSB product, two applications. As roof sheathing, Eclipse™ radiant barrier OSB is a cost-effective and energy-efficient roof sheathing solution. Eliminate the need for traditional house wrap when used as wall sheathing.

When it comes to choosing the best structural sheathing for your project, it can be a little confusing. To learn more, scan with QR Code App for a wealth of information.

Commercial/Clinical

Reduce installation time and labor costs with easy-to-install extended-length TuffStrand™ OSB panels—Available in 9, 10 and 12 foot lengths.
